In assoluta contro tendenza con il mercato del mobile attuale, dove ormai è sempre più difficile risalire alla reale provenienza del prodotto, abbiamo pensato di ribadire in maniera più chiara ed incisiva, che ogni tipo di processo, sia creativo che produttivo dei nostri prodotti e tessuti, viene interamente realizzato in Italia. Ogni articolo della nostra collezione che riceverete nel prossimo futuro sarà garantito con una speciale etichetta "100% Made in Italy" di cui trovate copia all'interno della presente.

Unlike current furniture market trends, which make it increasingly difficult to trace the real origin of products, we wish to clearly and forcefully stress that our products and fabrics' creative and production processes are entirely performed in Italy. Every item of our collection you will receive in the near future will be guaranteed with a special label "100% Made in Italy". Enclosed please find a copy of the latter.

Вопреки тенденциям и ситуации, сложившейся в настоящее время на мебельном рынке, когда выяснить происхождение продукции становится все сложнее, мы хотим внести ясность и настойчиво подтвердить: любой процесс, как творческий, так и производственный, относящийся к конечной продукции и тканям, полностью реализуется в Италии. Каждая модель нашей коллекции, полученная Вами в ближайшем будущем, будет гарантирована этикеткой "100% сделано в Италии", копию которой Вы найдете внутри.

GIORGIO SAPORITI

L'ineluttabile ciclo della trasformazione è qualcosa che interessa la nostra casa così come il mondo attorno a noi. Nell'ideare i miei articoli d'arredamento c'è una cosa che mi resta sempre impressa nella mente: occorre raggiungere la perfetta unione con l'interno che costantemente si rinnova. Giorgio Saporiti, conosciuto come una "fucina di idee", possiede una grande poliedricità di talenti che spaziano dal design per tessuto, arredamento e tappeti alla fotografia. Colori sgargianti, di grande impatto visivo e quasi provocanti sono sicuramente i veri protagonisti della vita di Giorgio Saporiti e ciò viene testimoniato dal modo in cui egli lavora e vive. Nonostante la sua profonda devozione per la "tinta", il designer preferisce un arredamento dai tagli netti e profili ben distinti. Nella collezione firmata Il Loft si riflettono, in egual modo, sia i colori dell'artista professionale sia i colori vivaci e sgargianti dettati dall'industria della moda. La collezione di Giorgio Saporiti riflette le caratteristiche nel mondo moderno. Lo stesso stilista afferma: "Noi siamo sempre in movimento, costantemente tentati dalle immagini del cinematografo, dell'arte, della pubblicità, della moda. Cerchiamo il nostro riflesso rivolgendoci sempre al nuovo: gli ultimi colori, gli ultimi materiali, un ristorante di recente apertura. Siamo le vittime fortunate della globalizzazione. Abbiamo il privilegio della vasta scelta e corriamo il rischio di perderci fra la moltitudine delle cose. Le mie creazioni aiutano una persona a fare la propria scelta personale".

The inescapable cycle of change invariably affects our homes as well as the world around us. When I design furniture I bear one thing in mind: how to achieve perfect harmony with the continuously renewed interior. Giorgio Saporiti, who is known as a "creative dynamo", encompasses an amazing amount of talent, ranging from fabric, furniture and carpet design to photography. The arresting, eye-catching, somewhat provocative colours play a central role in Giorgio Saporiti's life, and this can be seen in the way he lives and works. Despite being inordinately fond of "colour", the designer prefers clean-cut furniture with distinct outlines. The colours of the professional artist and the fashion industry's bright, gaudy shades are reflected equally in the Loft Collection. Giorgio Saporiti's collection reflects the characteristics of the modern world. "We are always on the move, always tempted by the images we see at the cinema, in art, in advertising and in fashion," states the designer. "We are searching for our reflection by constantly looking for new things: the latest colours and fabrics, a recently opened restaurant. We are the fortunate victims of globalisation. We are privileged to have a vast choice but run the risk of losing ourselves in the midst of so many things. My creations help a person to make the right individual choice."
